

ASPECT

Corporate Clothing

ABOUT US

Aspect Corporate Clothing has been supplying embroidered clothing for over 25 years. Embroidering in our own UK factory enables us to keep our prices low. Every garment is quality controlled throughout the production process and inspected prior to despatch. We always meet our customers' deadlines! You are welcome to visit us, take a tour of the factory and browse in the showroom.

ETHICAL

Our environmental and ethical responsibilities are at the heart of our business. Likewise, we require our suppliers to release information about their labour practices and manufacturing process.

WHY USE US?

- **Low prices**
- **Guaranteed delivery date**
- **In-house factory**
- **Established over 25 years**
- **Quality control systems**
- **Ethical principles**
- **Fast turnaround**
- **Showroom**

EMBROIDERY

HOW

Embroidery is the process of sewing a design (logo/text) onto a garment. Using our modern computer controlled embroidery machines we embroider up to 12 colours per design resulting in a high quality finish that is long-lasting.

USES

Perfect for corporate clothing, uniform, workwear, clubs and associations. Embroidery is most suitable for smaller designs, typically on the breast or sleeve of a garment.

ARTWORK/SET-UP

We can work with most digital formats. Once we 'digitise' your design (the process of creating a set of instructions for the embroidery machines) the data is securely stored for your use forever. There is a one-off set-up charge subject to your design.
